

2820 siamet

Advantages

- High edge stability
- Active additives guarantees cool grinding virtually no discolouration of work pieces

Applications

- Deburring and edges breaking
- Smooth grinding of welding seams and joints in hard to reach areas
- Keying of soldered and welded points on steel
- Grinding of radii in tool and mould manufacture
- Descaling of steel

Properties

- Removal rate: High
- Lifetime: Long
- Stability: Medium
- Finish: Good
- Application: Hard

Product Profile

Grit:	zirconia alumina/semi - friable aluminium oxide
Adhesive:	synthetic resin
Backing:	x-wt cloth, cotton
Grit range:	P024 – P400
Coating:	electrostatic closed
