

# 3708 siapan

## Advantages

- TopTec quality:
  - ▶ Controlled coating, best belt joints
  - ▶ Dust free sanding process: the antistatic configuration minimizes dust adhesion to the belt, the work piece as well as the sanding machine
- Drum & Pad (platen) sanding
- High lateral stability
- Fine surface finish from closed coating
- Smooth backing reduces wear on sanding

## Applications

- Wide belt sanding
- Surface calibrating
- Intermediate surface sanding
- Fine surface sanding
- Industrial, long-term sanding of wood based panels

## Properties

- Finish: Very good
- Stability: Very high
- Lifetime: Very long

## Product Profile

Grit:	silicon carbide
Adhesive:	synthetic resin
Backing:	combination paper/cloth
Grit range:	P036 – P150
Coating:	electrostatic closed
