

# siavlies

## Advantages

- Extremely flexible and very adaptable to various shapes
- 3-dimensional grit penetration
- Very low clogging
- Alkali- and solvent-resistant
- Very long product life
- Very low flammability and thus a safe alternative to steel wool

## Applications

- Keying and matt finishing on varnish and paint
- Removing spray vapour
- Sanding of paintwork treated with stripping agents
- Sanding of profiled and rounded workpieces

## Properties

- Finish: Very consistent
- waterproof / dry: Yes
- Stability: Highly flexible
- Lifetime: Long
- Cut: Immediate, uniform

## Product Profile

- Grit: aluminium oxide  
silicon carbide
- Adhesive: synthetic resin
- Backing: polyamide fibres
- Grit range: very fine – microfine
- Grit application: sprayed on
